

Mr Santa Claus
“The Christmas Workshop”
12 Reindeer Way
The North Pole
2512

Dear Delightful Children,

I am delighted to present to you, your very own “Magical Christmas Elf”.

This special Elf has travelled all the way from Santa’s Workshop, in the North Pole and is here to visit your family this Christmas Season.

This special Elf holds magical powers! Please do not touch your Elf, as children’s hands will take his magic away! During the day your Elf likes to stay very still, but don’t be fooled they will always be watching those good girls and boys, ready to report back to Santa. At night, the elf likes to get up all kinds of mischief and finds new places to hide! Sometimes, the elf even travels all the way back to the North Pole to visit Santa.

Each morning when you wake, look for a new elf clue it will help you find where your elf is hiding and tell you what they have been up to!

Your Elf is very excited to have found a lovely family to stay with for this little holiday. They have lots of fun and exciting things planned for everyone. I hope you will make them feel welcome!

Yours Merrily,

Santa Claus
